

## EVIDENCE-BASED CARE PROGRAM

**TO: All Staff**  
**FROM: GBHN Order Sets Committee**  
**DATE: April 15, 2010**  
**SUBJECT: Linking of Supporting Protocols to Order Sets**

---

To All Users,

Please be advised that the linking of Associated Documents and Clinical Protocols to existing Order Sets has now been completed on the GBHN Order Set web site.

Each Order Set listed on the GBHN repository that has either an associated document or a clinical protocol will be accessible by clicking on the plus sign located beside the Order Set in use. These can be printed off as needed.

The Clinical Protocols will continue to be listed in the usual manner as well by searching for the specific title within the repository.

Each entry will also be identified with the acronym (AD) for Associated Document and (CP) for Clinical Protocol.

This is a new feature that has been recently introduced to the website based on excellent feedback from the end users. Please continue to send feedback and suggestions regarding the Order Sets and Pathways as we continue to evolve.
